

PIG® Absorb-&-Lock® Liquid Solidification Absorbent

PLP231 Absorbs Oils, Coolants, Solvents, Water, Solidifying, Absorbs up to 21 gal.

Quickly stabilize and solidify free liquids for shipment and disposal.

- Stabilizes free liquids from industrial liquids for shipment and disposal
- Stabilizes and solidifies excess liquids that separate out from industrial liquids in drums, bulk storage tanks, roll-offs and other containers before shipping and disposal
- Contains large, highly compressed particles that work in a time-release action to reduce mix-off material separation during transportation
- All-natural, biodegradable absorbent works best when used to stabilize water and oil-based freestanding liquids before shipping
- Incinerable loose absorbent is great for fuels blending, providing 7,500 BTU/lb. with only 2.0% ash content
- One 35 lb. bag absorbs up to 21 gal. of excess liquid
- More absorbent than traditional cob, sawdust, clay or other loose products often used to stabilize liquids prior to shipment

Specifications

Fluid Absorbed	Oils, Coolants, Solvents, Water
Color	Tan
Recycled Content	95% Post-Consumer Recycled Cellulose Waste
Absorbency	Up to 21 gal. per bag
Unit Weight	35 lb.
Sold as	1 bag
Weight	35 lbs.
# per Pallet	57
Composition	Agricultural By-Products, Polymer Blend
Application	Solidifying
UNSPSC	47131902

Metric Equivalent

Absorbency

Up to 79.5 L per bag

Weight

15.9 kg

Technical Information

USOnly

This product can ONLY be shipped to the United States.
