Measure Tough with tapes designed for the industrial user.

Industrial users demand more from their tapes. Accuracy is key and durability is essential. New Lufkin P1000 and P2000 tapes have both.

Accuracy is assured by stringent testing of tapes statistically selected and measured against National Institute of Standards and Technology (NIST) traceable standards. Lufkin tapes routinely exceed NIST standards in every category, so users can be confident their measurements are consistently accurate.

Lufkin built its reputation on durability and these new tapes are no exception. Their cases are made of tough ABS plastic, modified for increased strength and impact resistance. Models with 1-inch width blades feature the patented Quad-Hook® steel-reinforced four-rivet end hook for blade life that blows away the competition, and all blades get a full-length protective clear-coat that exceeds ASTM standards for abrasion resistance.

Lufkin P1000 and P2000 tapes. The new industrial standard.

ACCURACY

- Exceeds NIST traceable standards

DURABILITY

- Super-tough ABS case with radial ribs for added strength
- Patented Quad-Hook® long-life end hook on 1-inch blade-width models
- Full-length clearcoat exceeds ASTM abrasion-resistance standards
- Tapes exceed ASTM 96-hour salt spray test for corrosion resistance

PERFORMANCE

- 9-foot standout on 1-inch blade width models
- Exclusive toggle blade-lock holds securely

COMFORT and SELECTION

- Case designed to fit the hand
- Easy thumb operation of toggle blade-lock
- 360-degree rubber overmold on P1000 tapes for non-slip grip
- Full chrome case on P2000 tapes
- Over 40 combinations of width, length, blade markings, and case style
