620R Diamond Flex-Lok™ Ramp

Drainage interlocking ramp

Diamond Flex-Lok™ is a high-performance modular matting system that combines the durability and toughness of an industrial mat with true ergonomic support and comfort. The ergonomic properties of Diamond Flex-Lok™ are the result of a multi-tiered footing design that elevates the mat off the floor, creating air pockets that allow the mat to flex with the weight of the worker. A large hole drainage system facilitates the removal of liquids and debris from the work area while a pronounced raised diamond pattern on the mat surface, and an inverted-V pattern on the ramps provide additional traction. Diamond Flex-Lok™ is manufactured from 100% recycled PVC for greater resistance to industrial chemicals, cutting fluids, oils and greases. A unique interlock system that comes apart only when you want it to allows for easy reconfiguration. Create your own workstation configuration or select an assembled stock size.

Stock Sizes	6"x12"
Thickness	1
Colors	 Black  Yellow
Product Group	Ergonomic, Anti-fatigue & Safety Matting
Environment	Wet/Dry and Oily Areas
Usage Intensity	Heavy duty
Sales Tip	Factory-assembled custom configurations available - Call Customer Service for more information (800) 621-2802
Material	PVC (DOP free)
Product Weight sqft in lbs	1.05
Process	Injection Molding
Prop 65 Warning	WARNING: This product can expose you to chemicals including di-2-ethylhexyl phthalate and/or diisononyl phthalate which is known to the State of California to cause cancer, birth defects or reproductive harm. For more information, visit www.P65Warnings.ca.gov
