

# IRT-16

Non-contact infrared  
temperature  
measurement device

The IRT-16 is engineered to provide instant, superior accuracy and consistency in surface temperature measurement for a wide range of applications. The lightweight and compact design of the IRT-16 makes temperature measurement on hard-to-reach surface convenient and efficient

- Temperature measurement range between  $-76^{\circ}\text{F}(-60^{\circ}\text{C})$ - $1157^{\circ}\text{F}(-625^{\circ}\text{C})$  with read-out accuracy of  $\pm 2\%$
- Laser pointer with sensitive 16:1 distance to spot ratio for improved accuracy
- Four-digit backlit dual display ideal for low-light areas
- $^{\circ}\text{C}$  or  $^{\circ}\text{F}$  selectable readout
- Min/Max/Avg and differential temperature mode available
- Built-in jack for K-Type thermocouple probe to allow direct contact measurement
- NIST certified units available
- Made in U.S.A.

#### Industry Uses:

- Preventive Maintenance
- Industrial Manufacturing
- Metal Production
- Glass Production
- Calibrating industrial ovens
- HVAC/R

24200 IRT16 INFRARED THERMOMETER  
24201 INFRARED THERMOMETER NIST
