

ITEM#    TiCLW-12

**12" TITANIUM DIMPLER® NAIL PULLER**

The Stiletto TiCLW12 is a 11.5 in. Solid Titanium framing nail puller with a Dimpler feature. The TiCLW12 has Titanium strength, yet is lightweight in the hand and pouch. The patented Dimpler feature makes pulling nails cleaner and easier. Stiletto Tool Company has been synonymous with high quality hand tools dating back to 1849. With its long history and strong reputation, the brand has evolved into the modern day standard for innovative, lightweight, ergonomic, productive, and professional tools. We set the standard with our line of premium titanium hand tools that span numerous trades such as framing, remodeling, finish work, siding, demolition, concrete, and drywall. Titanium is 45% lighter weight while providing the same striking force and strength as steel. Titanium tools also produce 10 times less recoil shock which helps reduce carpal tunnel syndrome. The combination of these features means less down time, more productivity, and most importantly less pain while working.

**INCLUDES:**

(1) 12" TITANIUM DIMPLER® NAIL PULLER (TiCLW-12)

**FEATURES:**

- 8.5 Oz solid Titanium bar with open truss design
- Patented nail removal feature makes a round impression around the nail head to allow the claws to easily slip under the nail head, thereby reducing damage to your material
- Strike plate outlasts steel bars 3X longer - doesn't spall, crack and mushroom like steel bars
- Two durable framing claws ends - tips outlast steel
- Very strong, very comfortable trussed bar design.
